

3DT / LET'S PLAY by JOTA - Kartendeck aus Casino-T-Shirt produzieren

The most visual card opener effect!

Show your t-shirt with a deck printed in the front and visually pull it out into the real world!

You don't receive a t-shirt! You receive an special printed transfer paper which you apply to your own t-shirt simply and quickly using a common iron. This way you don't have to worry about the size or the color because you can make the combination that you like and fit the most!

- You can wear it as a regular t-shirt all the time
- You can use your own Red Bicycle Deck
- Can be combined with any gaff deck (Red Bicycle)
- You can perform it as an opener effect or in the middle of your routine
- It's easy to do
- Reset in seconds
- Spectators can see all the effect very close
- Jota shows you different ways to do it for social networks or live audiences.

3 different designs to choose:
