

## **MENTAL DIE BLACK by Tony Anverdi - Mentaltrick**

Murphy's Magic is proud to present the **official Mental Die** by Tony Anverdi!

As the holder of the rights to Mental Die created by Anverdi in 1976; Murphy's Magic has produced the most up-to-date, innovative version available.

### **BASIC EFFECT:**

You hand out a single die (choice of white die with black dots or black die with white dots). Even though your back is turned, you know with 100% confidence which number has been chosen on the die. This classic effect has been 100% upgraded with today's modern technology and materials. However, the possibilities are endless. Way beyond the typical "I know your number" routines. And we included some creative routines to get you started.

### **WHAT YOU RECEIVE:**

#### **1 STANDARD SIZE DIE:**

- The die is standard "Gaming" size. Measuring only 0.625 Inches / 1.58 Centimeters!
- This is a 100% standard looking dice raising no suspicion when used.
- Just like a regular die, it can be rolled on a table top or in a cup without worries of chipping.

#### **WIRELESS CHARGING:**

- No need to purchase new dice when you run out of a charge! The die is equipped with the latest in wireless charging technology.
- Charging platform and USB cord is included for on-the-go performers.

#### **ARM/LEG BAND:**

- An adjustable, High-Quality arm/leg band.

#### **RECEIVER:**

**NEW! TACTILE/ VIBRATION REMOTE WORKS WITH ANVERDI'S MENTAL DICE SET!**

That's right! This new receiver can be used with a single die (included) AND it also contains a newly coded vibration system! This new system allows you to receive individual, tactile signals to be used in place of the receiver included with Anverdi's Mental Dice Set!

- This receiver contains all the latest remote technology.
- Tactile Notification
- Adjustable Vibration levels (Soft / Medium / Hard) to adapt to any environment
- On/Off light and Charging notification light
- WORKS WITH MENTAL DICE SET!!

#### RECEIVER CLIP:

- A super durable, removable receiver clip housing. This housing allows you to clip the receiver to pants, arm/leg band (included), socks and more.

#### ONLINE TUTORIAL:

The in-depth tutorials include everything you need to know about your Mental Die. Also included are some brand new effects to get you started right away!

**BASIC ROUTINE:** A 3-phase routine using a single die where the magician successfully influences a spectators choice, impossibly picks up on their thoughts, and reveals impossible-to-know future information.

In addition to the BASIC routine, you will learn amazing routines and performances such as:

**CAAN:** Two spectators secretly remember the numbers they rolled on a die. A card is selected, lost and shuffled into the deck. Then, each spectator take turns dealing the cards stopping at the secret number they are thinking of. The last card they dealt is turned over, and it's their selected card! Can be performed with one, three or more spectators.

**COLOR MATCH:** You play a modified version of the color by number game where your spectator randomly colors in a drawing with 6 different colors. Even though it appears the trick has gone wrong, the spectator finally opens your

prediction to find it perfectly matches the drawing they randomly colored in!

**DREAM LUNCH:** The spectator rolls the die, and randomly selects several food items...but somehow you have incredibly pre-purchased EVERY item THEY selected.

**THE MENTAL SHUFFLE:** A spectator rolls a die keeping the number covered and secret. 6 different items are continuously shuffled around until the spectator freely says stop. They show their number, and pick up the corresponding object. Even though they made all the choices, you reveal your prediction that's been in full view the whole time, and it perfectly matches their object!.

## **FEATURES:**

### **POWER LEVELS:**

Each time the receiver is activated the receiver will alert you if the die needs charging

### **ACCURACY:**

The die performs with incredible accuracy. No need to wonder about misfires.

### **SHUT OFF:**

Receiver "talks" to the dice. When you are ready to shut down your set, simply hold down the ON/OFF switch and dice will shut down!

### **SLEEP MODE:**

You have the ability to put the receiver in "sleep" mode during a performance to conserve battery life. The "wake-up" is instantaneous.

### **DISTANCE:**

You can comfortably use your dice up to 40+ feet from receiver.

### **BATTERY LIFE:**

Unbelievably long lasting batteries. You will rarely have to charge your dice or receiver.

### **DURABILITY:**

Everything has been produced of high-grade materials for lifelong use.
