

Miracle Wonder Milk Glass - Unzerbrechlich - Milchglas Zaubertrick

This is one of the oldest classics of magic. The unique qualities of this glass are that it is **unbreakable** and **easily washable**.

The basic effect is that a glass full of milk visibly diminishes, leaving just a couple of sips at the bottom.

The use of this glass is limited to your imagination. To name a few:

- You can use this glass to vanish milk from a paper cone
- After vanishing in the paper cone, you can also produce a white silk from it
- Holding the glass in your hand, ask a child to hold a straw in his mouth & suck -- the milk diminishes from the glass
- You can make a doll drink the milk, and more!

Overall it is a comedy prop and a sure hit with children.

It measures 5" in height & 2.5" in diameter.
