

Bicycle Illusorium Playing Cards - Pokerdeck

Seek deeper meaning in the Illusorium, and you'll come up empty. It is a place where anything goes and nothing is ever explained. Where mystery beats all. Where things happen without rhyme or reason. An alternative universe. Maddening in its lack of limitation and absence of rules. Captivating in its creativity. Its surrealism at last captured in a unique deck of premium playing cards that bear its name.

For the artists who play with perspective. For the visionaries who toy with reality. For the rule breakers who don't need to justify their actions. Who never ask permission and always question everything. Who say here's my view of the world, take it or leave it. All are recognized and revered by this warped and wonderful set of superior playing cards.

This is a deck for those who delight in the different. The collector who seeks to be challenged by what they see. The cardist who searches for the strange and feels the magic. The players who accept the absurdity of a life in which one day the cards will smile upon them, the next smirk in their face.

Features:

- Printed by USPCC'S high-end casino web press, exclusively in Q1 Quality (the highest grade of playing card quality in the industry).
- Quality, durable, Bicycle® Classic stock crushed thinner. This ultra-thin luxury stock lends the cards a superior premium feeling and avoids the necessity of the breaking-in period which lesser crafted cards require.
- Unique Painstakingly handcrafted art from the faces to the pips. Each card was created and 3D modelled from scratch. The pursuit of perfection.
- Magic coating (the cards handle smoothly and last longer than regular decks)
- Manufactured by the USPCC - worldwide leader in playing cards manufacturing
