

RING HOLE by Peter Eggink - Ring Flight - Zaubertrick

The Classic "Ring Flight" is an amazing piece of magic -what else could be better? Ringhole takes this classic to another level -More magical. More Impossible. The Ring Flight has evolved.

Effect:

Borrow a ring from a spectator and cause that ring to magically and visually disappear right at your fingertips, just like real magic. You explain that their ring actually went through the "*Ringhole*" into another dimension.

Next, with your EMPTY hand you reach into your pocket (jacket or pants) and remove a candy bag. The spectator opens the **factory sealed** candy bag...found INSIDE, between the candy...is the borrowed ring!

RINGHOLE comes complete with special engineered gimmick & object to sealed candy bag gim-mick. (Use your own candy bag).
