

Glare By Victor Sanz and Agus Tjiu - Vorhersage von drei Zuschauerkarten

Victor Sanz is proud to present you Glare, his personal tribute to Hofzinser.

Imagine putting a face down card as a prediction on the table. Now three spectators select 3 cards from the deck. After that, your prediction will reveal those three cards in the most artistic way you've ever seen: by using light and shadows.

Each gimmick is precision made by the expert self I: Agus Tjiu, from Indonesia, creator of big sellers such as Leap and Cross.

Key points:

- Self contained gimmick
- No magnets
- No elastics or threads
- No losing pieces
- No table required
- Instant reset
- Super easy to perform

Made in high quality material, looking as a 100% regular card, it will last you FOREVER.

It comes in a beautiful acrylic packaging that will protect your gimmick in your pocket.

"If Hofzinser saw this card, he would give Víctor the "gimmick of the year" award".

- Julio Montoro
