

PRESTIGE by Sergey Koller & Hide - Bühnentrick

"We were inspired by «of Dice and Men» by Tom Stone, and now developed a new version which is on steroids!!!"

Possible routines;

1) You ask a spectator to choose their future for the next year; you are showing 5 boards with five numbers on it. a spectator freely chooses any number from one to five

You are showing to the audience that spectator's choice was the word "luck", but under all the other numbers it says "COVID-19"

2) Then you'll show that all other numbers are now gone from the boards.

You can either use the supplied plastic holders (that give you an additional effect with the numbers) or any holder at all, like a book holder or you can simply put the cards next to any object on your table. So you can make any single card change, whether they are in the foldable clear plastic holder or on the table next to an object!

The main advantage of this gimmick is that you can activate it whenever you want and it is absolutely invisible for spectators. It's "locked" until you've unlocked it!

Everything comes in a nice custom made velvet protection bag to protect your entire set.

Important points:

-The plastic bags are really durable and will last you for a long time

-You can write on your gimmick only one time, it is not removable

-In the tutorial we will give you 7 possible routines, so you can choose your favorite one

"It's clever, it's has so many possibilities! I can't wait to start using it in my show" -Kevin James
