

Multi Square Blendo - Bunte Seidentücher in Tasche - Beutel Verwandlung

Here is a truly beautiful routine that will fill the spectator's eyes with colors, and will be long remembered.

The Magician shows a small black bag and then shows some brightly colored hanks to the audience. One at a time they are placed inside the black bag. Then all of a sudden the hanks disappear and the magician changes the black bag into a beautiful large silky cloth with all the colored hanks apparently having blended into it.

The magic involved and the display of the very beautiful colored cloth are a feast for the eyes, and could be very well used as a finale for any show.

This is a great classic effect from the mind of the world famous Italian Magician Alberto Sitta.
