

LS Dice by Leo Smetsers - Trickwürfel - Gezinkte Würfel

Holland Tricks are proud to present the **LS Dice** by Leo Smetsers.

This set comes complete with two identical dice. One of which is totally regular, yet the other is painstakingly gaffed by hand. Each of the gimmicked dice are hand drilled with precision, custom magnets embedded and then sealed with the spots repainted by hand.

The magnetic die can be used in your favorite Chop Cup routine or if you use an external magnet, you can even force a number!

This set of dice is perfect in every way and due to the time-consuming manufacturing process, we only have limited numbers so order yours now.
