

Cube 52 by Craig Petty - Zauberwürfel Tricks

"Cube52 opens up a whole new world in cube magic. Absolutely Ingenious!"
- Henry Harrius

Cube3 **LITERALLY** changed the game of Rubik's Cube Magic.

8 years later...**Cube52** is the NEXT evolution.

Cube52 is an epic 4 Volume project that comes with a totally unique, fully marked deck of cards unlike any other!

What do you get with the **Cube52** Project?

The Cube52 Deck:

Designed by the incredible Phill Smith, the back design hides an undetectable, yet intuitive marking system. But the faces are solid blocks of color. 6 colors to match those of a Rubik's Cube.

54 playing cards in a full deck...54 stickers on a Rubik's Cube.

A Rubik's Cube has 6 faces, with 9 colored squares on each face. The **Cube52** Deck has 6 color cards. 9 of each.

WHY DID NOBODY THINK OF THIS BEFORE?! Because they're not a 2 time Thurston Creator of the Year Award Winner... like Craig Petty.

The Cube52 Tricks:

9 hours of instructions, spread over 4 incredible Volumes, Craig Petty plus some spectacular special guests will guide you step by step as they teach some of the most incredible magic you could ever think of using your **Cube52** Deck.

Volume 1: The Creator

From the man himself, Craig Petty scratches the surface of some of the most direct yet mind melting tricks you can learn to get you started.

Volume 2: The Duo

Kev G and Colin Claus are 2 of the global leading authorities on Rubik's Cube magic. In Volume 2 they both sit down with Craig and teach you tonnes of

creative and wild routines that you can perform with your **Cube52** Deck.

Pssst... it's fun to watch them fool Craig with his own project during their instructions.

Volume 3: The Mentalist

THE Peter Nardi. One of the godfathers of Magic. One of the UK's elite mentalists sits down to share 6 incredible mentalism focused routines that are ultra-commercial, easy to do and fooled everyone of the Murphy's Studio team when they watched it.

Volume 4: The Expert

For the last volume we return back to Craig to teach you some of the more difficult, expert level routines that can be achieved with **Cube52**. Serious magic for the serious practitioner.

The best part; you don't need to know how to solve a Rubik's Cube and for some tricks... you don't even need one!

Hidden within the hours of instructional content are not just the secrets to tricks, but you'll also learn tricks using a REAL Rubik's cube, advice on how to become a better performer, unlock tips and tricks to allow you invent your own **Cube52** routines and so much more.

Printed by the USPCC on the best quality stock and finish. Not only is the deck marked but it's also made to work in a stack order... but you'll find out more about that in the project.

Cube52 is *truly* a new era of Rubik's Cube magic. For decades magicians have been trying to awkwardly shoehorn playing cards into their Rubik's routines... with **Cube52** *finally* everything makes sense.
