

## **Paul Harris Presents Deep X by Paul Harris with Paul Knight**

DEEP X

by Paul Harris in Collaboration with Paul Knight

ANYONE'S THOUGHT OF WORD OR NAME IS INSIDE YOUR EXAMINABLE WALLET!

THE DEEPEST ASTONISHMENT

A small thin ID Wallet with a clear window is placed on the table. A small stack of cards are clearly seen thru the window. These wallet cards are spread so that EACH of the CARDS are displayed.

Then anyone genuinely just THINKS of any four-letter word or name (any word that has all different letters.). Her secret word is not written down. Her secret word is never told to anyone!

Let's say her secret word is "BING".

She then tells you her 4 random lucky Cards. Do they really make her luckier?

You openly slide out the cards from the Clear Wallet. The same cards that have been in full view from the start.

You display the four cards one at a time.

They are an EXACT MATCH OF HER LUCKY CARDS.

You let this moment of Deep Astonishment sink in...

But even luckier than that...

You turn each of her four Lucky Cards face down.

The first card has a big Sharpie B

The next card an I

Then an N...

and finally...G

BING!

The same secret word she had only THOUGHT OF has been in the wallet from the start!

Even you don't know what her thought-of word is until it's revealed in the wallet!

The Prediction cards are completely Xaminable!
