

The Cheese by Jerome Sauloup - Gegenstände verwandeln

The Cheese! Without doubt Jérôme Sauloup's most unusual creation!

The successes of Choice, Switch Cup or Letters do not stop Jérôme Sauloup, on the contrary! This talented French magician comes back with a new idea: to make what you want appear while making ... a camembert disappear!

The original idea was simple: find a flash effect with a totally unusual object. Successful bet ! The Cheese is direct, strong, very visual, highly customizable and above all very funny.

Imagine instead, the magician presents a pie chart in its original box. All he has to do is close and then open the lid for the Camembert cheese to disappear and leave room for what you want!

For a children's birthday party, bring up candy, scarves or Lego ®. For a wedding or a marriage proposal, why not play with a flower, a ring or the bride's wedding ring? For a mentalism experience, make an incredible revelation with a prediction and then a message!

You will understand, this tool can be used on many occasions. The inner size is 10cm in diameter.

To look like real cheeses, all the gimmicks are finalized and checked by hand by Jérôme Sauloup. The gimmick is exceptionally realistic, as you would like to eat a piece of it, you have to see it to believe it.

Strong points:

- Fits all boxes of Camembert.
- Incredible realism.
- Easy to do.
- Super visual.
- Versatile and customizable.
- Put whatever you want inside!
- Very original.
