

The Phantom Hand - Invisible Thread Technology - Zaubertricks mit Unsichtbaren Fäden

The Phantom Hand is an electronic bracelet.
It took years of planning and testing.

Finally available, it is the most innovative device that exists on the world market to perform effects with invisible thread.

No more fear of breaking the thread, losing loops or getting tangled.

This is a breakthrough in invisible thread technology.

Wear it in the morning and you are always ready to work wonders, even in short sleeves.

Completely silent and very practical to use even for magicians who are afraid of performing effects with invisible thread.

The breaking of the thread is reduced to a minimum and if it happens the tool can be easily reset in a few seconds.

Extremely comfortable to wear, for all wrist sizes.

Built-in rechargeable lithium battery.
Very strong and invisible thread for close up.

World patent.
