

Smart Cubes PLUS RED (Large/Stage) by Taiwan Ben - Reihenfolge der Würfel verändern - Kubusspiel

Smart Cube Plus is a **NEW & IMPROVED** version of smart cubes.

This new version has a **SLICKER DESIGN**, and has been thoughtfully tweaked to be **MORE PORTABLE** while **STILL MAINTAINING THE IMPACT** of its predecessor. This makes **Smart Cube Plus** the perfect "packs small, plays big" routine for **ANY SHOW!**

You present a hollow tube, a stack of six individual plastic panels numbered 1 through 6, as well as a tower of dice which are also numbered 1 through 6.

The tower of dice is arranged & **STACKED IN SEQUENCE** of their value from top to bottom. The panels are attached to the tube, but in the **OPPOSITE SEQUENCE**. Upon covering the tower of dice with the hollow tube, the tower of dice magically rearrange themselves to the **EXACT SAME SEQUENCE AS THE PANELS!**

You offer to repeat the trick a number of times, with **DIFFERENT SEQUENCES EACH TIME!**. You can arrange them by even or odd numbers, rotated cubes, mixed, jumbled or just plain out of order. Regardless of how mixed the tower of dice is, even the interactive ending with the spectator's **Radom** sequence **IT WILL STILL MATCH THE PANEL PERFECTLY!**. The cubes from the tower can be separated and shown as separate pieces.

Contains:

- 1 opaque tube
- 6 individual numbered panels
- 6 individual numbered cubes gimmicks
- Variations moves and tips
- Complete routine with online instruction video
