

SvenPad® Picasso: Large Tri-Section (Large Format) - Forcieblöcke

Introducing our newest work of art. **SvenPad® Picasso**.

(Pages are **BLANK**):

- Large Format (3 sections, 11x14")

For the first time ever, we have taken a genuine Canson art pad from France and remade it into an incredible new SvenPad® masterpiece for stage and cabaret performers.

*"Brett Barry has done it again! Creator of the internationally bestselling SvenPads®, he's unleashed 2017's power player of the year: **SvenPad® Picasso**. Great for the professional stage worker, well recommended for the discerning mentalist."*

- Magician Ning Cai, Singapore

- **AMAZING QUALITY USING A REAL ARTIST PAD**
- **NOTHING ELSE LIKE IT ON THE MARKET**

This is a totally unique and brilliant design with 3 layers of precision deception.

The **Picasso** is TRI-SECTIONED, allowing 3 separate forces or predictions. Each section may be independently flipped and shown to be different.

Use the **SvenPad® Picasso** for an incredibly fair and visual confabulation routine or add drawings of differing features or colors. The **Picasso** is a blank canvas for your ideas.

This is a very heavy duty and sturdy pad, and will be available in 3 cool styles:

- **LARGE FORMAT TRI-SECTIONS (THREE SECTIONS OF 60 PAGES)**
- **BLANK PAGES**
- **ALL SHIP WITH A FREE CRAYOLA WATER-BASED MARKER**

This is the first time we have taken an off-the-shelf artist's pad and manufactured it to our high SvenPad® standards! The spine here is spira-glued, the same as

our traditional KoD SvenPads®. In other words, the pages do not move, and the long short pages remain at their tight tolerances. We take an "off the shelf," high quality artist's pad apart, and then give it the famous SvenPad® treatment. The result will surpass your expectations.

*"The **SvenPad® Picasso** is just beautifully made, and its three sections customized in endless creative ways. Plus, it looks completely innocent and can easily be seen on stage. Love this pad!"*

- Jen Kramer

*"Like all of the products in the SvenPad® series, the **Picasso** pad is a meticulously engineered prop that works flawlessly. It's an amazingly versatile tool that I've enjoyed incorporating into my stage show."*
