

L Box by Long Long & Bacon Magic - Boston Box

L BOX was created by China's underground magician, Longlong. It has the same shape as the Boston Box, but there's a powerful gimmick inside.

The most amazing is the gimmick is removable. When fitted with the gimmick, it can perform more creative routines; without the gimmick, it becomes a finely crafted, usual Boston Box.

L BOX is made of high quality brass, its shape is very classic and elegant, you can use it for a lifetime.

Through the full online instructions, LongLong will teach you several revolutionary sleights and routines.
