

Super Pom Pom Stick by Mr. Magic

This is Super because there are TWO Pom Poms hanging on each end of the stick!

The magician pulls a Pom Pom from one end, and a Pom Pom from the other end moves - one is pulled down, and the other pops up! When another is pulled, a different Pom Pom moves. It's crazy!

The audience starts to think they are all tied together, so the magician pulls the stick apart, one stick in each hand. Magically, when a Pom Pom is pulled on one stick, another Pom Pom from the other stick still moves!

The stick is placed back together again, and they move all over again. It drives the audience nuts!

Great magic with colorful Pom Poms, and lots of laughs - super for comedy bits!
