Introducing **The Flourish Magazine** - the first cardistry physical magazine to bridge the world between cardists and laymen.

For the first issue we sat down with **Huron Low from the Virts** who takes us on a deep dive through the history and making of the Virtuoso brand and playing cards. Find out first hand just **what it took to become the biggest cardistry brand in the world** from one of the co-founders.

The Flourish Magazine comes with **a cardistry collectible playing card** featuring a talented cardist from inside the community. This issue features Nikita Yatsik, a very talented cardist from Russia. Nikita shines through his amazing creativity, managing to create unique cuts that always end up surprising you.
