
Cupcake 2.0 (Metal) by Milo & Bacon Magic

Features:

- Crafted from solid metal for enhanced durability
- Features an elegant black matte finish
- Compact size, suitable for various performance settings
- Ideal for executing captivating coin and ball routines
- A premier choice for professional close-up magicians

Designed by Milo and produced by Bacon Magic, **Cupcake PRO** is a versatile magnetic cup that can perform with both balls and coins in a same time. It's a clever combination of Chop Cup and Slot Okito box. It can be used to perform both the traditional single cup and ball routine and a large number of coin magic with the regular half-dollar coin.

In addition to playing cards, coin magic and cup and ball magic are also the main types of close-ups magic, and they can be found in most close-ups magic shows. They also have their own characteristics: the coin magic is mysterious, the cup and ball magic is dazzling, them let us marvel. So is there an organic combination of these two types of magic? **Cupcake PRO** may have solved that problem.

You can use the **Cupcake PRO** to perform any of your favorite coin tricks. The coins disappear, appear, and move from hand to the cup... All of a sudden, the coin that was supposed to go through the cup become balls, and you can start your single cup and ball routine... You can seamlessly and silky switch between the cup and ball magic and the coin magic, allowing the audience to have more novel experiences.

Cupcake PRO is small in size and easy to carry, which can add a lot of routines to your professional close-up performance, and can skillfully connect the two different types of routines, so that your whole program is more smooth and natural.

The product includes 1 metal cup, 1 magnetic ball and 2 ordinary balls as well as online video explanation.

NOTE: You need to supply your own half dollar coin.
