## Ramen Heads - Pokerdeck

Who doesn't love a bowl of Ramen? Initially produced for our 2022 annual Mystery Deck promotion, this unique deck is now available.

We worked closely with illustrator Jannik Stegen to create a custom ramen-themed deck of playing cards. Inspired by vintage Japanese graphic design, this unique deck features twelve custom court cards depicting playful characters from Japan's vibrant history, such as; Godzilla, a toy robot, a sumo wrestler, and a samurai, to name a few of the original characters, all of whom are eating ramen, of course.

Limited edition of 2,500. Printed by the U.S. Playing Cards Co. Packaged inside a nostalgic letterpress-printed tuck box on oatmeal card stock.
