
Squeeze Away Block (Micro) by Trick Supply - Buch

Created by Edward M. Massey. We have now released a elegant close-up version.

Three examined wooden blocks, two blue and one yellow, are placed into a wooden cabinet which has no front or back. The yellow block between the blue ones. The two blue blocks are squeezed together, and the yellow block gets smaller and smaller until it vanishes completely! In the end the two blue blocks can be given out for examination, again.

A great close-up illusion.

The gimmick is so easy to handle, it will drive you crazy!

Quality wood product, dark lacquer, true beauty!

Dimension Approximately: 5.5" x 2.5" x4", blocks approx. 1.5"

Supplied with written instructions as well as an online link.
