
ESP Testing Set PRO by Spooky Nyman

After releasing the best-selling ESP Testing Set, I am delighted to now present the **ESP Pro Testing Set**. The Pro edition contains two testing sets, now printed on high-quality plastic stock, held in a custom carry wallet.

Imagine... the spectator has a genuinely free choice of 5 ESP symbol cards. You don't see the front or back of their card, and all the other cards are covered... but still you're able to divine their selection with no fishing, and 100% accuracy. A stunning 3 stage routine with a phenomenal secret.
