Tourist Trap by Spooky Nyman

Tourist Trap is a brand new application of a classic principle.

You grab a Tourist Guide flyer and ask your spectator to choose any destination they'd like to visit. Moments later, you are able to read their mind and determine which landmark they've chosen. You can then reveal a chosen Tube station (London flyer) or a chosen Broadway show (NYC flyer).

Each set comes with an extremely authentic flyer for both London and NYC, so you can perform **Tourist Trap** no matter where you are.
