
The King of Dragon (Holographic) - Pokerdeck

The **Dragon Deck** is the name of this project, and **Holographic Version** is very special. The design was co-produced by Infinity Soliware and designer Jason.

The concept of the Dragon card back is to give the card an extra meaning when it opens, and when you get the playing card, it will appear like a whole dragon in front of you.

We print with German paper and the cardistry process.
