
Color Extraction by Vernet Magic

Comes with a specially manufactured gimmick and everything you need to perform this close-up miracle.

- Reset in seconds
- Ideal for walk-around magic
- Very visual
- Great for social media

The magician shows an orange MINI BiC lighter, pushes it into his closed fist, and pulls out an orange ribbon. He continues this until the whole lighter is inside his fist, and he extracts the ribbon entirely.

When he opens his hand, the lighter is now blank! He somehow took away the color!

To finish, he wraps the ribbon around the white lighter, snaps his fingers, and reveals it's orange again. Finally, he gives the lighter for examination!

Use your own MINI BiC
