
FPS Wallet True Black Leather by Magic Firm

You can finally stop searching for the ultimate card to wallet. Slim and stylish, the FPS Wallet by Brent Braun & The Magic Firm is a minimalist, modern wallet that you'll love to carry every day.

"Brent has solved it. I've seen countless wallets on the market but this is THE most practical for the modern performer. Best in class."

- **Joshua Jay**

Behind its traditional True Black genuine leather exterior lies a simple yet effective loading mechanism. The FPS Wallet isn't just a magic wallet. It is designed to be your actual wallet, with room for your ID, credit cards, and cash. It also has RFID-blocking material that stops unwanted wireless scans to protect your credit card information.

In the video instructions, Brent guides you through the features of the wallet, multiple ways to set it up & load it, and teaches you his real-world handlings of Signed Card to Wallet. Also included is Gregory Wilson' dynamite routine where a borrowed ID appears inside your wallet.

This wallet belongs in your pants; not in your drawers.

- The perfect everyday carry card to wallet
- Made from 100% leather. True Black smooth outside and inside
- RFID-blocking equipped
- 4 internal credit card slots & 1 easy-access outer credit card pocket
- Removable/repositionable steel money clip
- Clear ID window
- Fast & smooth loading system
- Super slim. You'll barely notice it in your pocket
- Includes video instructions for Signed Card to Wallet, Borrowed ID to Wallet and 3 additional handlings including 2 methods that require no palming.

"FPS...Fun. Practical. Sophisticated."

- **Gregory Wilson**

"A wallet that finally fits my style. It looks so much like my every day carry, I have

to constantly remind myself about the magic secrets within."

- Garrett Thomas

"Brent put decades of experience into creating a wallet uniquely designed for real world, regular pants, front pocket card miracles!"

- Michael Ammar

"Love the wallet. Smooth loading and for once it actually looks like wallet someone uses and not some crappy \$5 wallet you found on the floor."

- Ryan Schlutz

"Here's the thing with most 'card to wallet' wallets..... They are either HUGE & don't look anything like a normal wallet. Or they just look dumb. Or worse... Both! FPS looks more like a normal, plain hip pocket wallet than any other card to wallet I've seen."

- Nate Kranzo

"I've seen and played with a lot of wallets over the last 20 years. FPS wallet solves all the issues I've had with other wallets and it does it in a sexy, practical everyday carry style wallet. Simply brilliant."

- Adam Wilber

"Finally! A flawlessly functional Card to Wallet, that actually looks like a wallet. Brent just raised the bar."

- Ryan Plunkett

"Brent's FPS Wallet delivers a surprising amount of versatility for such a slim, unassuming design. The wallet itself is beautifully made and easy to use. It has enough compartments to actually be useful as your real, everyday wallet. More importantly, Brent has thoughtfully considered several clever & unique ways to perform with the wallet. Whether you like your wallet in your front pocket, back pocket, or jacket pocket you can use the FPS. I particularly love Brent's ideas for using it while seated at a table."

- Kevin Reylek

"I have never carried a "magic" wallet outside of a show because they have always simply been impractical, bulky and have looked dated. The FPS solves that and is the first wallet that I would actually choose to carry daily. Combine that with a deadly secret and you are now always ready to astonish while looking

great doing so."
- **Daniel Martin**
