## Deckamorphosis by Joker Magic

Cell-out has been renewed!

One of our best seller trick - Cell-out/phone from deck - continues as **Deckamorphosis** from now on!

A deck of cards held in the magician's hand transforms into any small sized object!

The deck can transform into another deck or become money, candy, small beverage, business card and so on... only the sky is the limit!

The trick is highly effective for promotional purposes!

The objects appeared can be immediately used and examined!
