
Tumi Magic presents DISSOLVE by Chiam Yu Sheng & Erick White

Chiam Yu Sheng created an incredible piece. Two years ago, he came to us to present this incredible effect. Inspired Melt by Matt Johnson, he gave his blessing to make this possible.

Not only does he pierce a bill with a card, but the card changes color in the blink of an eye. First, a part will change color and then be changed completely. The bill is not damaged and can be borrowed by the audience.

Two systems on one card. Don't worry about the thickness, this one is as thin as making a double lift

You will need a few minutes of practice and ready to perform it.

The recommended angle for this effect is 180 degrees

Includes the gimmick ready to use out of the box.

Suitable for close up and parlor performances.
