
JUMBO MONTE PLUS 2.0 SMALL by Dar Magia

Dar Magia brings us a new version of a magic classic, Automatic Mosqueta 2.0, in the version that we all know, the game had a very open ending, but from the development of new ideas I reached this version that is having great success.

In the hands of the greatest magicians in the world, It cannot be missing from your show to have a great final act.

Here is a smaller version (25cm X 18cm) for smaller places or one-handed manipulation.
