
Crazy Cards by Dominique Duvivier

Did you like "Alladin"?... you'll love "**Crazy Cards**".

The magician shows 4 red-backed cards. These are a Four of a kind (for example, the four Aces).

The cards instantly turn face down together.

Then the cards turn face up one by one.

One of the cards is now blue backed... and all the other cards are also blue backed!

And when you turn them face up... it's now a different Four of a kind (here the four Queens)!

Incredibly, they now have red backs again!

The four cards are placed one by one on the table.

Detailed video instructions

Strong points:

- A highly visual and colorful trick
- Maximum effects
- Bicycle cards
