
Syncro - Pro Stopwatch by Magic Pro Ideas

SYNCRO - PRO STOPWATCH ON BORROWED PHONES

Syncro is a magic Stopwatch that you can use on your phone or even better, on the spectator's phones very easily.

Just by using an NFC tag (INCLUDED!) that you can palm, or also, by entering a small URL in front of the noses of your spectators!

With Syncro, you can force, predict or guess any time, even the milliseconds! laps and more!

The spectator will make times, stopping whenever he wants, and you will be able to predict or guess all the resulting milliseconds exactly.

You will have total control over everything your spectators do with their stopwatch.

IMPORTANT POINTS

- **ON BORROWED PHONES:**

You can use Syncro on your spectator's phones, whether iPhone or Android. You can also use it on your phone.

- **CLONING SYSTEM:**

You will receive in your stopwatch everything that the spectator does on his stopwatch.

- **NFC:**

You will receive an NFC tag with the physical license that you can purchase at magic stores.

- **FORCES AND MORE:**

You will be able to force, predict or guess any time, even the milliseconds, laps and more!

CLONING SYSTEM - MATCHING TIMES

You will receive all the times that the spectator makes on his stopwatch directly on yours, complete times, milliseconds and even all the laps he makes.

With this you will be able to incredibly guess at what time he has stopped, or what time he has generated.

And you can also make an incredible match, where you will have made the exact same time(s), on your stopwatch, that he makes on his stopwatch!

CAMOUFLAGE SYSTEM

Syncro will auto-detect what type of phone your spectator has, and will show an identical iPhone stopwatch or a modern Android stopwatch.

In the instructional video you will learn how to perform it.

NFC: WHAT WILL YOU RECEIVE?

You will receive a physical license that will allow you to activate the app for life. Inside the package you will find INCLUDED an NFC chip, you will need to watch the instructions inside the app to know how to use it.

EASY LEARNING AND SETUP

You will be able to configure Syncro in just a few seconds, since it does not have complicated configurations.

You will be able to learn how to use all of its features very quickly, you will be amazed at how easy to use and how powerful Syncro is.

MULTI-LANUGAGE

You will be able to perform Syncro in any language since you can change all the text in the stopwatch to your language. Also, you can set dot or comma, depending on how it looks on your real stopwatch.

IOS AND ANDROID

Syncro works on all iOS and Android phones.

FAQ

CAN THE PHONE OWNER SEE THE SCREEN?

Yes, everyone can see the iPhone stopwatch after you have put it on home screen, it will take you 2 seconds, since it's exactly the same as the real iPhone stopwatch.

On Android you will see a stopwatch very similar to most stopwatches, Android users in general have very rarely used their stopwatch, so if they see the Syncro stopwatch they will think it is their stopwatch.

HAVE SYNCRO ANGLES?

You just have to take care of the angles so that they do not see you when you

enter the URL or use your NFC, this will take you only a few seconds.
In the instructional video, you will see how to do it under the spectator's noses.

HOW CAN I REMOVE TRACES ON THE SPECTATOR'S PHONE?

On iPhone you have to close the tab within Safari, and then delete the access you created on the home screen.

On Android you can simply go back 3 times, that will take you to the web page you were on when you borrowed the phone.

If you want no trace left in the history, you must enter the Syncro URL from an incognito window. We believe that this is not necessary, since rarely any spectator will check the history, when the trick you are performing is about Stopwatch and you have never mentioned that you used the browser.

CAN I PERFORM SYNCRO ON CLOSE UP, PARLOR or STAGE?

SYNCRO is ideal for beginners and workers because you can create routines to any situation, from a small group of people to a large stage.

CAN I PERFORM THE TRICKS WITH MY OWN PHONE?

Yes, you can use SYNCRO on your own phone, on Android or iPhone.

We recommend that you practice on your phone and then do it on a borrowed phone.

WILL I RECEIVE UPDATES?

Yes, you will receive updates and also improvements and new functionalities in the future.
