## Profile by Nikolas Mavresis and David Jonathan

**A hands off stunner that packs a surprise twist so good you will hear their jaws hit the floor!**

**PROFILE** is an incredibly fun and engaging personality test effect that happens to use a pack of cards.

Four questions are asked to the spectator, who deals their responses to arrive at a random card. A prediction is read and things take a hilarious and stunning twist towards the amazing surprise climax!

Key points:

- Super easy to do - no sleights, no memory work
- Can be performed completely hands off - you never touch the cards
- Uses an ungimmicked, regular pack of cards
- Quickly resets, or use the same deck to go into any other effect
- All answers can spell in different amounts of letters
- 3 amazing versions are taught - each with their own unique kicker endings
- Compatible with English, Spanish, Dutch & French languages

Comes with custom designed props, access to a 30+ page PDF and over 1.5 hours of video instructions.
