## David by TCC Fashion - Pokerdeck

When it comes to sculpture, pure white marble is often the first thing that comes to mind. Inspired by the art of sculpture, this deck showcases clean and exquisite lines, as well as the interplay of light and shadow. Paying homage to iconic sculptures, including Michelangelo's renowned David, it represents one of the most celebrated masterpieces in Western art history.

To create this tuck case, intricate and elegant embossing techniques were employed. Both thematically and visually, it instantly evokes the world of sculpture. European-style vines and textures adorn the entire composition, culminating in the centerpiece of the tuck case, the statue itself.

In order to achieve a visually striking embossed effect, special embossing plates with a height 2mm higher than conventional ones were used. This results in a pronounced and distinctive embossed effect on the finished product. The choice of cotton-based paper provides the tuck case with a tactile roughness reminiscent of marble.

The cards maintain the theme of pure elegance, with unified colors across all suits. During the printing process, eye-catching premium PANTONE silver ink was employed, elevating the deck's luxury and further accentuating the theme.

The court cards depict various famous sculptures, each one carefully selected for its artistic beauty and significance. From the intricate details of Michelangelo's David to the timeless elegance of Venus by Milo, these cards celebrate the masterpieces that have captivated art enthusiasts for centuries.

Immerse yourself in the world of sculpture with this deck, where pure elegance meets the artistry of renowned sculptures.
