
RoboTic (Gimmicks and online Instructions) by Julio Montoro

Do you like mentalism? Do you like visual magic? Do you like giving souvenirs to the spectators? Well... **Robotic** is for you!

This is what happens:

The magician introduces a business card from a Toy Shop that he loved when visiting New York. He explains that the Toy Shop had plenty of awesome toys. He says that he is going to perform a magic trick with that business card and one of the toys that he liked the most.

Now, the spectator thinks in one of the toys and the magician rips the card in different pieces, which are going to be used to restore it with the shape of the thought toy: a robot. That specially shaped card is INSTANTLY given to the spectator as a souvenir.

You will receive 200 cards that will allow you to perform 100 performances, as well as an organic forcing method that does not use any kind of apps or strange extra-things.

This is the visual mentalism that you have been waiting for!

Welcome to Robotic.
