## Hocus Pocus Practice Focus by Amy Kimlat - Buch

***"Magicians work hard, just like dancers and singers.  
They don't become great just by snapping their fingers!"***

(Ages 3-8) When a magician amazes Mila at her birthday party, she wants to become a magician just like her! The magician makes it look so easy, but magic tricks are trickier than Mila thought! Just when Mila's dream feels like it might disappear, she discovers the magic secret in an unexpected place... and person.
