
The Silk Classic Boxset - Pokerdeck

The design of the playing cards was inspired by silk-related elements. Graphics with both modern elements and textile textures were created to tell the story of the ancient Silk Road and the oriental kingdom. When designing the cards, ARK drew inspiration from them and finally achieved the fusion and unity of silk elements and creativity of playing cards.

The interwoven texture of the silk material gives it a special touch. The design of the collector's box echoes the theme of the playing cards. The paper of the box is delicate and lustrous pearl paper and we present these interlocking patterns through hollow craft to express the richly layered silk texture.

Beautiful three-layer hollow and gold foil craft. The front of the collector's box overlays the hollow mesh engraving with full gold foil to tell the extraordinary story of the two decks of cards inside.

Features:

- Two decks
- Limited to 1,555 with a numbered seal
- Chinese-style silk theme
- Silk-made card box
- Vertical hollow box
