
Shocking Pass Case 2024 by Tenyo Magic

The magician shows the transparent compartment of a wallet and inside it puts a white piece of paper after having folded it. He gives the transparent compartment a "snap" and take out the piece of paper that will now magically have writing on it! The same can be done with a playing card of hearts, for example, which will turn into a spades and for many more transformations in full sight!

FANTASTIC!
