## **Magical Picture Cards 2024 by Tenyo Magic**

The magician asks a spectator select a card. Then he shows a deck of blank cards except for a couple of drawn cards. He places these two cards on the table and brushes the white deck across the table four times as if he were mainting, and each time releasing a "stripe" of cards. There will be four rows of cards on the table, vertically placed side by side, which will magically compose a drawing (they were white before!) representing a Japanese person who predicts the chosen card!

**FANTASTIC!**
