The holographic editions are manufactured by Make Playing Cards (MPC). Holographic foil printing is applied to both the packaging and the card surfaces, creating a dreamy and luxurious color-changing effect.

We use compressed card stock to achieve a lighter weight, reduced friction, smoother tactility, and improved elasticity. Fun and eye-catching, these holographic editions have been designed to cater to the needs of collectors, cardists and magicians.

The faces and backs of these playing cards have been meticulously crafted by professional artists, featuring irresistible cat and dog-themed illustrations. These playing cards are not only a testament to craftsmanship and unique style, but they are also designed for animal lovers of all ages and those who appreciate exquisite design. Whether you're playing cards with friends or simply admiring the exquisite illustrations, this deck of playing cards will become a cherished addition to your collection while also expressing a deep love for animals.

Our project has a noble purpose: to raise awareness about the ethical treatment of animals and the issue of animal homelessness. Through animated, cartoonish brushwork, we've illustrated dozens of different dog and cat breeds, aiming to inspire more people to appreciate the adorable nature of these furry companions. By doing so, we hope to encourage greater kindness and compassion towards animals in our daily lives.
