
Crayon by Kings Wild Project - Pokerdeck

This deck is not your custom deck of playing cards. Based on the popular OG Crayons deck by Kings Wild Project, this 2023 edition has been given a complete makeover from top to bottom, with a vintage-inspired tuck case that'll make you feel like you've stepped back in time.

But that's not all! The courts and back design are brand new, adding an element of excitement and surprise to your card games.

Every round will be a visual treat as you admire the vibrant and stunning artwork on each of the face cards.

And of course, let's not forget about the artist Jokers! These cards are to life by Jackson Robinson's daughters - Claire, Scarlett, and Olive.

Whether you're a seasoned collector or a casual player, the **Kings Wild Crayons 2023** will undoubtedly add a touch of magic to your card game experiences.
