
FLASHPOT LIGHTER by Creativity Lab

If you're seeking for something both quick and practical, our lighter will become your secret weapon!

Introducing a **Flashpot** cleverly disguised as a lighter.

Load it up with flash cotton and unleash a blaze of fire!

Crafted with a plastic body and an aluminum barrel.

Interchangeable flint compatible with the widely available and popular "clipper" model.

Only a small amount of flash cotton is needed to produce a visible flame, even from a distance.

Stop using boring lighters for lighting up things such as candles...

use our lighter to get the audience attention, play some pranks, add a magic touch to your performance and so on!
