## **Tumbleweed by Brent Braun and Andy Glass**

*"This is a trick that checks all the boxes for me: Easy to do, easy to understand, and it has a devastating effect on your audience!"*

- **Rick Holcombe**

*"Looks so good I fooled myself practicing...twice!"*

- **Bhavish Malkani**

Everyone knows that jokers are wild.

**Tumbleweed** makes Jokers more wild than ever. With this effect, Brent Braun & Just Andy have taken Dai Vernon's popular Twisting the Aces plot and turned it on its head.

We're not saying that Brent and Andy are smarter, more talented, or better-looking than Vernon, but they did come up with a method to make the twisting effect easier, more visual, and more baffling than ever.

**Tumbleweed** uses just four cards and minimal sleight of hand. A packet of four Jokers turn over one by one, mixing themselves up until your audience's brains are scrambled.

Easy to learn, and easy to master

You'll carry **Tumbleweed** with you for the rest of your life.

*"One of the cleanest and hardest hitting packet effects I've performed in a long time. 10/10."*

- **Ryan Daniels**

*"Such a fooler and so easy to learn. After watching the explanation with a bit of practice you'll be frying brains in less than an hour."*

- **Christopher Seaton**

*"So simple, yet so perplexing and with just a couple of cards. For me, this is a no brainer. Bonus points for being super easy to do!"*

- **David Em**
