## Key to My Chest by Mr. Magic

Introducing the mystifying **Key to My Chest**.

Are you ready to witness a mind-boggling magic trick that will leave your audience in awe?

Imagine borrowing a finger ring from a spectator and then making it impossibly disappear through a solid metal key!

That's exactly what happens with this incredible close-up magical effect.

The magician starts by borrowing a finger ring from a spectator and then handing them an ornamental key for inspection.

The ring is then slid onto the key shaft, and at first, it seems like nothing out of the ordinary.

But when the key and ring are handed back to the lender of the ring, they find it impossible to take the ring off the key!

The dimensions of the key are such that the ring cannot be taken out of it in any way, leaving the audience scratching their heads in disbelief.

But that's not all - the performer then takes the key back and, with a simple stroke, makes the ring "melt" off the key, almost as if by magic!

The ring can then be examined once again, leaving the audience in a state of wonder and amazement.

The mystifying **Key to My Chest** is a one-of-a-kind magic trick that will make your audience believe in the power of real magic.

So, are you ready to add this incredible effect to your magic repertoire?

Get your mystifying **Key to My Chest** today and start astounding your audience!
