## Love Bandana - Rainbow by Lee Alex

**Add a splash of color to your shows!**

All the colors of the rainbow in an attractive design.

Scented with bubblegum for a truly sensual experience.

### **Effect:**

A black bandana with a bright rainbow-colored heart pattern and matching border is shown on both sides. The performer shakes the bandana and multicolored hearts fly off into the air.

The bandana is shown blank on both sides, save the rainbow border. The magician takes a handful of heart shaped confetti and throws these over the bandana. Alternatively the bandana can be swept in the fallen confetti hearts.

Once again the heart pattern appears on the bandana and this can be shown on both sides as it was in the beginning.

The subtle addition of the bandana's rainbow border makes the flash transformation almost undetectable even at close quarters.

Suitable for the largest stage and visual enough for street performances, "Zoom" shows, parlor shows etc.

Complete with hand-finished satin bandana (approximately 24 inches x 24 inches, 60 cm x 60 cm) and a supply of hand cut, multicolored heart shaped confetti (enough for many performances).

Easy set up and ready to perform any time during your show.

\*Elements of the "**Love Bandana - Rainbow**" are infused with bubblegum essence. Essence contains 0% alcohol.

Share your love with pride!
