
Monologue - Pokerdeck

The name "**Monologue**" and this deck of cards are a match made in heaven. Why, you ask? One look at the card back will tell you. The backdrop of the "**Monologue**" cards can be described as pure white, but there are two distinct colored borders surrounding it: one in gray and one in red.

These two borders prevent "**Monologue**" from being a truly blank deck, yet they still emphasize the concept of nothingness.

The vast white expanse in the center feels like a silent confession, a canvas onto which any thought or feeling can be projected. What you see or think of is what it represents.

In terms of craftsmanship, "**Monologue**" is made of French black-core paper, giving it a lightweight yet resilient feel. As a deck meant for regular cardistry practice, it caters to a wide range of functionalities.
