## Stories Vol.1 (Red) - Pokerdeck

Every story has two sides and isn't complete until you've heard both views. **STORIES** is part of the Vanda Artists Series and explores the inherent duality that any tale possesses.

Each court card in this deck features an artistic representation of a unique dual-sided story and has been illustrated in painstaking detail by Serbian artist Srdjan Vidakovic, who also created the amazing artwork for our previous project series, The Planets Playing Cards.

**Volume 1** features a red tuck box with gold & red foiling, monochrome court illustrations, and a serial number identification sticker (from a limited run of 2500 decks). Cards produced by USPC + tuck box produced by Gamblers Warehouse.
