
Leaves Winter (Blue) by Dutch Card House Company - Pokerdeck

The fourth and final installment of Leaves playing cards by Dutch Card House Company (DCHC). Three years ago, DCHC introduced the first edition of the Leaves Playing Cards - the Green Spring, followed by Red Autumn Leaves edition, and Summer Leaves Edition in 2021 and 2022, respectively.

These custom decks are eco-friendly and fully recyclable playing cards to support and help to protect the environment. The idea behind Leaves playing cards has always been to raise awarenesses for how we use the planet's resources.

The **Leaves Winter Edition** in a beautiful ice blue color features an ornament-looking layout of the back design, reminiscent of winter, complete with small ice crystal details.

The court cards maintain their traditional designs but with an updated color scheme to make them fit in better with the winter theme of the deck. Together, this is perfect for card games, magic routines, and cardistry!

The signature tree on all the Leaves Jokers in the previous editions has now lost all its leaves this Winter covered by snow and is patiently waiting for Spring to come again. Now the tree has cycled through all seasons within the series!

The striking tuck box compliments the cards it holds inside. The leaves ornament runs from the front to the back of the box and can create a display with 3 boxes. the tuck of the Standard Edition is closed by a custom-designed seal and a custom-numbered seal for the Collector's Edition.
