
ACES (RED) - Pokerdeck

ACES: Playing cards for Poker.

Finally, a deck of cards that's thoughtfully designed specifically for poker (and other card games). This 100% plastic deck is waterproof and durable, with a thicker stock than other popular plastic decks, and a textured finish on one side providing a great high-quality feel (unlike other plastic decks). It also features a 4-color design, as preferred by most online poker players, making flushes easier to spot.

The tuck box features holographic foil printing both inside and out in addition to a black foil pattern covering the exterior of the box
