
Close Up Matte - Elegant Close-up Pad (Lavender Purple) by TCC

Indulge in the epitome of luxury with our new closeup pads with velvet fabric. Expertly crafted through a meticulous three-step process and meticulously hand-cut, our yield is exceptionally low with an average of only one piece of finished fabric per square meter, compared to the standard 5-6 pieces.

The luxurious fabric creates a smooth, silky texture that is pleasing to the touch and is higher in quality and cost compared to that used in our previous close up pads.

We have used **2 types** of luxury velvet fabrics for our new close up pads.

Snowflake velvet has a unique and intricate pattern resembling a snowflake-like texture. This type of velvet is made by using a special knitting process that creates a raised, embossed surface, giving it a distinctive look and feel.

Experience a heavy design sense with our thickened card mat that doubles as a work of art, even without a magic performance.

Designed for all close-up work, this pad is sturdy yet lightweight, the golden aspect ratio of 0.68 elevates the aesthetic appeal of your desktop performance, offering effortless usage and visual elegance.

The thickness combined with a sturdy PU leather base firmly secures the deck to any tabletop, providing unparalleled stability for bold and safe magical actions.

The luxurious presentation continues with the high-quality black card envelope packaging, featuring a unique window design that allows you to both see and feel the fabric and leather texture.

For the packaging, we have used a high-quality black card envelope with a unique window design. You get to intuitively feel the texture of the fabric and leather while simultaneously seeing the color match. Experience it visually and tactilely. The thickness combined with a sturdy PU leather base firmly secures the deck to any tabletop, providing unparalleled stability for bold and safe magical actions.

Features:

- Ideal for close-up performances.
- Durable yet lightweight construction.
- The luxurious fabric creates a smooth, silky texture that is pleasing to the touch and is higher in quality and cost compared to that used in our previous close up pads.
- The matte fabric has a medium texture and is not overly stiff, allowing for a comfortable grip.
- The fabric is paired with a thick high-density sponge for optimal resilience and a soft cushioning surface.
- The bottom is made of black lychee embossed PU leather, providing a non-slip and wear-resistant base.
- The top layer and base are supported by hardwood boards for added stability.
- The product comes packaged in a high-quality custom black cardboard envelope with a unique window design, allowing for clear product visibility.
- Available in 4 variants: Red/Black, Golden Velvet and Lavender Purple, Orange Snowflake Velvet.
