## The Elves Deck

*"Do you like playing cards? We Do!"*

We also love Fantasy and Elves and this is our first project, a deck of poker playing cards that is fantasy oriented and that depicts four different races of Elves as the court cards. It took almost two years for us to get where we are and we are so happy with the final result after working really hard and trying out so many different ideas.

Everything in this project has been carefully thought and all our cards are custom and hand drawn. Every detail of our playing cards has been studied and revised until we got to the final design that we are proud to show you today.
